Our Book, What, Where,
When and How to Plant

Delivery made when wanted by you. If not convenient to pay for the stock now satisfactory arrangements for payment may be made.

Our last season's catalogue will be sent you on request and we will allow you last season's prices backed by the same guarantee and conditions on all orders placed before we issue our Spring of 1921 catalogue. We assure you this will be a great saving to you, besides giving you stock that will grow. To order now will save you money, time and risk of disappointment.

Good nursery stock is very scarce and will be hard to get for the next three or four years. This is due to the shortage of seed and seedlings for budding and grafting for the last few years and to the great shortage of nursery help. As you know, it takes a number of years to successfully grow and transplant seedlings, bud and develop them into sturdy and hardy stock.

The demand for trees is greater than we have ever known and indications predict a sharp rise in prices soon. We suggest therefore, that those considering buying nursery stock, take advantage of the time and opportunity which we are glad we are able to offer now. We will fill orders with exceptionally choice stock as we have the finest lot of trees we have ever grown.

We can give the best recommendations from those who have bought our goods, besides our bank and commercial rating.

Peter Bohlender & Sons
by W.F.B.

P. S. Free to you--our booklet "What, Where, When and How to Plant" will be sent to you on request. Will also furnish you a pencil sketch and planting plan of your home grounds so that you will be able to do the work yourself and you will be proud in the future that it is your own work. It brings your home closer to you.

Good Nursery Stock is Very Scarce—Order Now. There is Sure to be a Sharp Advance in Prices. Send Your Order in Now. Save Money

|------------------------------------|--------------------------------------|
| 2 Festiva Maxima—best white. | 2 Felix Crousse—best red. |
| 2 Model Perfection—beautiful pink. | 1 Glory of Boskoop—very large white. |

To anyone that wants some extra large climbing roses—6 to 8 ft. tops—4 years old at.....\$1.50 each
Following kinds:

- | | |
|---------------------------------|-------------------------------------------------|
| Climbing American Beauty. | Crimson Rambler. |
| Dorothy Perkins—pink. | Flower of Fairfield—Perpetual Blooming Rambler. |
| Excelsa or red Dorothy Perkins. | Climbing Baby Rambler—blooms all season. |

If you have any unsightly barns, other buildings or views that you want to screen, plant Lombardy Poplar. Make a hedge of them, planting about four feet apart in single rows.

- | | |
|------------------------|-------------|
| Trees 8 to 10 ft..... | 75c each |
| Trees 10 to 12 ft..... | \$1.00 each |

If you want to live where you are and have a different climate, plant a windbrake of Evergreens. It is like moving 300 miles south. Plant them 5 ft. apart in four rows, using Austrian Pine, Norway Spruce or White Pine. Will furnish trees for 100 ft. windbrake for \$42.50 as follows:

- | |
|-----------------------------|
| 40 Norway Spruce, 18-24 in. |
| 20 Austrian Pine, 2 ft. |
| 20 White Pine, 2 ft. |

Selected bushy trees, nursery grown. These trees are selected and not seedlings, but trees that are compact from the ground up. They will stand transplanting and exposure. Never use cheap forest seedlings, as they will not develop into proper trees for a windbrake. Nursery grown trees cost more to begin with but are a saving in the long run.
